[170809 Leviathan Field Mtg Agenda Aug 9.pdf](#)

Team,

Attached is a draft agenda for the field meeting on August 9, 2017. The agenda was prepared in coordination with Ken Maas.

Please meet at the Atlantic Richfield Administrative Trailer at Pond 4 at 9 AM.

Our standard PPE consists of: hard hat, safety toed boots, long pants, long sleeve shirts, safety vest, safety glasses and gloves. We typically have spare hard hats, vests, and gloves on site for visitors.

Please let me know if you have any questions.

Thanks,

Marc

Subject: RE: AUG 9 Leviathan site visit with Forest Service

Tony,

Per our discussion on yesterday's ARC call, EPA is available on August 9th.

Please proceed with the request, provide planning logistics (time, check in, pickup/cars etc) and develop a draft proposed day's agenda.

As discussed, attached is the agenda from the May 23rd meeting

As part of that trip, on the day before or the day after---please also have your field crews coordinate for start of the beaver pond diversion to begin, and EPA oversight

Lynda

Subject: Leviathan site visit

I would like to schedule a site visit to the Mine to give Forest Leadership an opportunity to view the scale and scope of current operations and also have a substantive discussion about the various options being considered as components of the long-term remedy. I think all of us would benefit from hearing the Forest's perspective regarding the variables that should be considered prior to remedy selection and implementation. Ultimately I view this trip as a chance for the Carson District Ranger, the Deputy Forest Supervisor and the Forest Engineer to see the scale and scope of the current operations and how these are being considered in the RI/FS documents being compiled. If there are others that you think would provide value to this meeting, please encourage their attendance.

Currently I'm looking at a 0900-1300 timeslot on Wednesday August 9 with a backup day on the 11th. Please let me know (ASAP) if either of these days works and I'll finalize a schedule. Scheduling in the summer is brutal by design.....
